

Prostyle 180° Pivot Safety Hinge Set

20.13.01.07

- Prostyle Double Action Pivot Set, retractable top centre pivot with cover plate and bottom strap.
- It uniquely fits to the frame leg and head, which takes away the need to have any fixings into the floor. This makes it quicker to fix and more adaptable as it doesn't leave drill holes in the floor if you were to remove it again at some point.
